“ Our condolences to the family of Gilbert Wilhold. He raised a fine son who has honored Elvis' memory for years now. Gil gave so much to his country and NASA. I'm sure he will be missed dearly by his former co-workers, friends and loved ones. Sorry for your loss. Take Care.

“ Gil was such a unique and special friend for over thirty-five years to our family. A devoted friend to my brother, Steve, he welcomed my family into his circle of friends back in 1976 when we moved to Huntsville. We spent many weekends boating, fishing, and playing cards. We used any holiday or birthday to celebrate and gather together. We shared family weddings and sadly funerals too. A world without Gil will be a very sad place indeed.

My Father-in-law, friend, and Grandfather to my Son Joseph, a brilliant mind, a kindred spirit who I had deep respect for and many great conversations and understanding of life. Although circumstances and miles came between us we could always pick up the phone or write a note and always pick up where we left off. Greatly missed, his legacy lives on.

Just came across this. Gil was my Boss at NASA '61-'64. My name is Robert Barrett. He was in the Acoustic Section, I was in Structural Vibrations. RIP Buddy
