“ I didn't see Mert much after our school-teaching year in DeKalb County following graduation. We were suitemates for 3 years at Judson and when we were campused, we could still get together. When someone has the same birthday, there is an immediate attraction. What attracted me to Mert was her intelligence, her iconoclasm, and her independence. There were nights of deep discussions, cutting chapel to play bridge, and trying to stay one step ahead of Student Government as we invented new ways to entertain ourselves. Mert was a large part of my college education.
