“ I spent four years at chiropractic college with Mike. Our class was like a family. Even though a lot of of us have not seen each other in 30 years, it just seems like yesterday. We spent every day for four years with each other. During those four years, Mike and I became close friends. He was always so quiet and down to earth and I was a little crazy. Every once in a while,, he would always bring me back down to earth. He always came across as a super quiet guy, but every once in a while, he would say something where he'd get a little punch in the shoulder from me and he would just grin. I wish we would've stayed in touch a lot more than we did. It breaks my heart to hear of his passing. You will be missed Mike. Prayers for peace for the surviving family.💔💔💔 Donna Engel

“ As kids growing up together, and hanging out we seemed to get into mischief. If it was hitting a baseball that busted our grandparents windshield on their Ford LTD, or with both of us with boxing gloves where Michael knocked out my two front teeth. We ran together at times while he attended Life College in Atlanta watching the Atlanta Braves games, or just hanging out. Michael was an inspiration in my life. Michael always had to tell me about the latest on Nicholas, and Emma. Michael was extremely proud of them. He will surely be missed, and GOD surely has a good man with him. Rest in peace buddy.
